

Prof. Dr. Hasan Meriç
Periodontology,
Istanbul Aydın University
Miacademy President

Dear Colleagues,

Back in 2019, we hosted our first Miacademy World Symposium in the vibrant city of Istanbul, where Europe and Asia beautifully collide. That event left a lasting mark on the educational community and opened exciting new paths for professional development. We're thrilled to announce that we will be gathering once again for our second World Symposium from October 24–27, 2024, in stunning Antalya.

Antalya, with its rich history and culture seamlessly blending with modernity and nature, is the ideal setting for our event. We believe that your insights and expertise as internationally respected speakers will truly elevate our symposium and create an unforgettable experience for all involved.

At the heart of what we do are knowledge sharing, innovation, and continuous growth. This upcoming symposium is a fantastic opportunity for us to reinforce our commitment to these values and collaboratively shape the future of education.

On behalf of MIA Academy, I would like to extend our heartfelt gratitude to the sponsors who have significantly contributed to making this event possible. Your support is invaluable.

We can't wait to welcome you to Antalya and are excited to share this special event with you. Thank you in advance for your participation and contributions. We're looking forward to creating memorable moments together!

Warm regards,
